

Conor McKeon

Ireland native with a Master's degree in Biology. Having worked for one year in a biotechnology industry, I'm excited to dive back into the specialty coffee industry, interacting with people in a vibrant, fast-paced environment and applying my high level of customer service and professionalism. In my next role I'm keen to learn as much as I can about coffee and I'm interested to gain management experience. I'm a creative and ambitious person and I enjoy working collaboratively on projects and exchanging ideas.
